### CHAPTER XVI. The early influence of Colonel House.

Selection of the cabinet of President Wilson was a unique process, probably without parallel in American history. It is doubtful whether anyone played a greater part in the making of the cabinet than Colonel House.

The development of the friendship between the quiet man from Texas and Woodrow Wilson was as remarkable as their subsequent separation under circumstances all the more amazing to relate when the full story of their association is told.

Colonel House was first of all a man of independent means, a liberal in politics and of influential personality. His tact and diplomacy, his progressiveness and his unselfishness captured Mr. Wilson's imagination. "What I like about Colonel House," explained Governor Wilson one day to a group of newspapermen who displayed curiosity about the growing friendship, "is that he holds things at arm's length—objectively. He seems able to penetrate a proposition and get to its very essence quickly. He wants nothing for himself. He will not hold office and is a truly disinterested friend and the most valuable possession a man could have."

In those weeks preceding the inauguration of Mr. Wilson, Colonel House did an extraordinary thing which won that day to the new administration. He had been in the White House for some time, but it was not until the inauguration of the new chief executive and what he might do to business generally. House of the bankers asked Colonel House to attend a dinner and explain what was likely to happen under the new administration. He did not consent until he had Mr.

## WILL RENEW HOTEL DRIVE IN FEW DAYS

Activity in the campaign to raise \$100,000 in Janesville toward financing a new \$500,000 hotel is reaching its climax now in the making here. It was announced at a drive headquarters, Friday afternoon, that a total of \$20,000 has been gathered to date. Renewal of the work will be made within a day or two, it is stated.

The greatest news events of the day are found chronicled in the Gazette each day. No other evening paper reaching Janesville has so full and complete a telegraphic report of what has happened in the same day. In addition, the Gazette also prints a big special number every Saturday afternoon with many features. "The Story of the Four Strangers" is getting to a place where the interest in the features of Captain Newcomb, master criminal, is intense. "The True Story of Woodrow Wilson" is a feature which no other newspaper in the United States in the size of Janesville is using. It costs a great deal of money to get these fine special features, but the Gazette also believes that its readers are entitled to the best there is.

## Oil Inquiry Fails, Thus Far, to Reveal Criminal Culpability by Anybody

By DAVID LAWRENCE  
Copyright 1923, by Janesville Daily Gazette.

Washington—The Teapot Dome "scandal" has to date failed to develop "criminal culpability" on the part of any of the persons mentioned in the controversy, and it has not yet proved that the oil leases made by the government were disadvantageous.

That is the status of the investigation which has had many sensational exposures but which so far as legal consequences are concerned has not convicted anyone.

Green Bay.—Representatives of the Sanitary district of Chicago paid money to two Green Bay youths, from 17 to 19 years of age, this week to secure twenty-five signatures to petitions asking that Chicago be permitted to divert 10,000 cubic feet of water per second from Lake Michigan, according to an article published in the Green Bay Press-Gazette today.

The article says that when the petition was returned with only 22 names, one of the Sanitary district representatives transferred the pen from his right to his left hand and filled in the blanks, according to the affidavit of a Green Bay man who was present.

## GASTON MEANS, "GO-BETWEEN" TELLS STORY OF OFFICIAL FRAUD

Washington—(Another Pandora's box)—brimming over with allegations of corruption in the department of justice, was opened today before the senate committee investigating Attorney General Daugherty.

Gaston B. Means, former department of justice agent, announced that he expected no quarter and would give none, related an amazing story of collecting money for the late Jess W. Smith, Attorney General Daugherty's "bumper and friend," of intimidation calculated to prevent his testimony, and of espionage of senators.

The most sensational of Means' testimony, if one sensation could be assessed as greater than another, was a charge that he (Means) in February 1922, received in the old Bellevue hotel here in Washington, \$100,000, from a Japanese representative of the house of Mitsui and Company, which he paid over to Smith and which he said was for the purpose of stopping government prosecution of the Standard Aircraft company against which the war department was claiming over payments aggregating six millions.

On behalf of Smith, Means further alleged he had received large sums of money, which he turned over, and which he said were for the purpose of guaranteeing that there would be no prosecution for transportation and showing of the Carpenter-Dempsey prize fight films in interstate commerce. In other instances Means testified he had received money in "connection with liquor permits." In all these transactions which he alleged, Means described himself as "the money carrier."

Replete with details of his activities, Means told a story alleging that for the information of President Harding, through Smith and W. T. Underwood, he had conducted an investigation of Secretary Mellon in connection with liquor permits in New York.

"He slipped through our fingers the first time," Means said, "but we got him."

## VITAL ESTIMONY GIVEN BY DEFENSE IN TRAILER SUIT

Important testimony was introduced by the defense Friday in the \$250,000 suit of the Edgerton Highway Trailer company against the Janesville Electric company.

The case will probably continue until next week. Owing to the importance and the amount involved, the final arguments of counsel will not be limited and it is expected will take at least a day. There will be many questions for the jury to determine and doubt is expressed whether the case will go to the jury before next Tuesday or Wednesday.

Following the present case there are several other matters for the court, including the drawing of a jury for the cases of Catherine Dodge Martin, Mrs. J. T. Hooper and the case of the state against George Grimm.

Deposition testimony from Frank J. Andrews, in charge of the main Janesville plant the night of the fire, later killed an electrical circuit breaker, was read into the record. In his statement on examination, Andrews told of receiving a telephone message from George J. Blakesley, Edgerton manager of the main plant, that the fire was at the fire. Andrews looked at the Edgerton switch circuit and found that it was out. "Due to some break in the line," he denied breaking the circuit and that the break was a part of the testimony of Blakesley.

Andrews told of trying to put the circuit breaker back in but "could not make it stick." Blakesley then told him to leave the plant and he heard from him after cutting the wires in Edgerton. Some 35 minutes later Andrews again heard from Blakesley and after the wires were cut, he was able to connect up the Edgerton circuit again.

John Ruch, fire chief at Edgerton, gave important testimony Thursday, telling of the terrific spread of the fire.

"I do not think any part of the building could have been saved," testified Ruch. Later on cross-examination, Ruch testified that he saw the fire was "not sure of the office part of the plant—but the factory part was doomed."

Arthur Maves, volunteer fireman at the time of the fire, testified that the trailer plant, located near the burning plant, was not as close as he had been told. He looked from the window and declared the fire "had a good start."

"Could the fire in your opinion have been controlled?"

"No—I don't think so," answered the witness.

Questioned about the pressure of the fire being water, Maves testified it was different at different hydrants.

There were too many leads of hose for the main capacity," declared the witness. "As far as I noticed, the hose was not used in the same way as the hose leads I observed."

Maves also told of seeing people on the old plant using hose to throw water on this unit and on the burning new unit.

## C. T. A. TESTERS IN COUNTY UNIT

Cow Testing Association Meeting Brings Out Valuable Discussion.

By forming a county association of the testers of the five Rock county cow testing associations, a progressive step was taken Thursday afternoon during a meeting held in the court house for furthering C. T. A. work.

More uniform methods will be employed by the testers in the compiling of the records, publicity and reports and in addition old regulations enforced and new ones made effective to make the records more accurate. The publication of a Rock county booklet, with consolidated C. T. A. reports from all the associations was favored through Farm Bureau action. Instead of having each association issue a report, it is proposed to merge all these reports in one county booklet, intended to present facts about the milk industry in the county, featuring the dairy cow records.

Favorable action was taken on the plan of W. J. Dougan, Beloit, in having a county testing association demonstration at the fairs, one exhibit showing the merit of records and value of the purebred bull and competition between grade cows with high records with prize money. Two committees were named by W. J. Dougan to work these demonstrations out before fair time.

Henry C. T. A. Kieles Criticisms of C. T. A. work were heard and discussed with the prospects of radical improvements in the record work. A. J. Crammer, Madison, in charge of C. T. A. testing in Wisconsin was present and discussed many issues. Testers were urged to keep their sample boxes locked, for the advancing things that have out the county to the front such as club work, show herds and legume crop production.

The chief discussion was over the establishing of a uniform schedule of feed costs, milk prices and other facts going to compute herd records. The figuring of the actual price received for milk or fat was favored rather than a county average.

"It seems to me some farmers are losing sight of the real value of the testing associations," declared J. A. Craig.

"We are proud of the high records made, but I am concerned mainly with obtaining a record on my herd and the individual cows to determine their merit for my own use."

Grade Cow Show

A. J. Crammer announced that an exhibit of C. T. A. cows would be selected from a Wisconsin county for exhibit at the state fair and national dairy show. One exhibit discussed was a class of cows producing more than their dams and another of high producing cows the get of one bull.

A policy is to be followed of checking on 10 and 15 over cows by requiring the tester to send in to the state office at once, information of such a record.

"We want to find the truth about these records," declared Crammer. "We know there is some padding of the records and we hope to start an association in Rock county where there is a preliminary milking with the tester inspecting before the herd is tested."

The testers were organized into a county group with C. J. Crammer, Beloit, president; W. H. Roberts, Milton, secretary and treasurer; and Clayton Fisher, Janesville, vice-president. The other testers, J. A. Craig, Janesville and A. W. Schmitt, Clinton, are directors. The testers will meet here on April 5.

The meeting was well attended, all associations being represented. R. T. Glasco presided.

## BLAINE IN BITTER ATTACK ON PARTIES

Blaine—A bitter attack upon both major political parties and upon those involved in the congressional investigation into the leasing of naval oil reserves was voiced by Governor John J. Blaine in opening the campaign for La Follette-Progressive Republican candidates to the Republican National convention here last night. The address was one of a series which the governor will deliver during the next 10 days.

## "COWS AND CORN" BOTH CHAMPIONS

Katterhenry Brothers, Beloit, Making Outstanding Farm Records.

By H. T. GLASSCO.

Winning the grand sweepstakes over all varieties at the Wisconsin State Grain show, and owning the highest producing cow in all the cow testing associations of the state, is a record achieved by few farmers. Katterhenry Brothers, living one and one-half miles west of Beloit, are the farmers who have the corn and cow.

On the 250-acre Rockwell farm, which is in a high state of fertility, 35 acres of Golden Glow corn were grown last year. The high producing seed has been selected year by year and has now reached the high state of perfection of the 10 selected sweepstakes ears of the 10 selected Katterhenry-Rockwell farm. 22 cows of very superior breeding are being milked at the present time. Kt, the famous sweepstakes cow, is being used abundantly and in the near future ex-

cepting a lot of milk. Beauty, a half sister of Kt, gave 24.5 pounds of milk a day for an average in January. Her total number of pounds of butter fat for the month was 114.2 pounds. This was done by milking half a dozen, producing 68.5 pounds of milk per day, with 61 pounds of butter-fat to her credit.

Twenty-seven head of young heifers, sired by Clothilde Creamer Danvers who was purchased from the celebrated Jefferson county herd, are being raised. A milking machine is part of the equipment on this farm. The young calves are fed whole milk, while the older ones are fed skim milk, all meal and whole oats. By running the separator, Katterhenry Brothers say that they are able to save \$2 per day by skimming part of the milk.

To show the difference in the producing ability of some cows, Katterhenry Brothers, through their Cow Testing association records, found out that one heifer earned them a profit of \$1.68 a year, while the famous Kt made them a profit of \$234.46 for the year. Kt, during her high year of 1922, produced 22,374 pounds of milk and 1,005 pounds of butter-fat, equal to 1,005 pounds of butter. The milk record is still the largest of any C. T. A. cow in Wisconsin.

New silos are being constructed on the farm. Lino is being used abundantly and in the near future ex-

cepting a lot of alfalfa are in prospect. With plenty of corn silage, alfalfa, oil meal and bran, Katterhenry Brothers will make a record for the state.

At the recent meeting of the Rural Advancement club held on this farm, the 10 sweepstakes ears were shown to the admiring farmers. Two purple ribbons and one blue ribbon were won by this sample at the State Grain show.

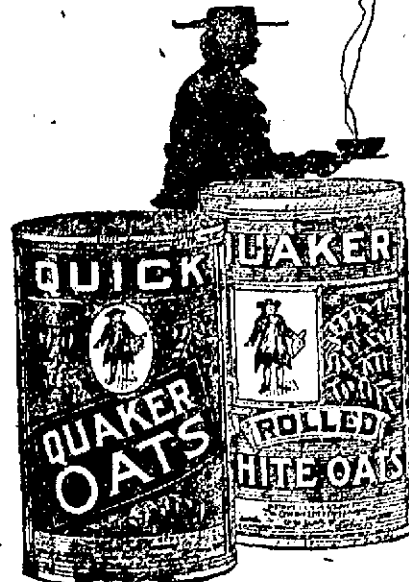

Katterhenry Brothers are the coming farmers of Rock county.

## AN OPEN LETTER TO CITY MANAGER TRAXLER

Morrison Hotel, Chicago, Illinois

March 12, 1924.

Dear Manager Traxler:

Next Monday night at the Apollo Theatre, I am to be tried for murdering the truth. And I am appealing to you for a fair hearing. My lawyer is a graduate of the Kalamazoo Night School and a speaker he sounds like some of the names of the Radio Stations.

The whole trouble is that very few people believe that a successful debater can tell the truth. One day last summer while rowing in my motor-boat on the ocean, I sighted a whale and thinking he would give me a lift, I slipped a hose over his tail. I am very good at this and have had many offers to visit Mexico and Spain for a split-week. Well, the whale started. But in the wrong direction. We passed England, Ireland, Russia, South Africa, Chile and Kankakee sixteen times in twenty-eight minutes. I tried to speak to him as I talk fish, but he only rolled his eye as if I was accusing him of loafing. I thought perhaps I had grabbed the brass ring. Finally getting tired of looking at the same scenery, I jumped overboard, took a couple of strokes and slipped the nose off his tail. I could have taken three strokes but I didn't want to pass him.

Now the indictment against me says that as a liar, Annanias was a piker alongside of me. I don't know Anna, but I understand she was the press-agent for Shelby, Montana. Mr. Gibbons informed me of this.

I hope you will come to the Apollo next Monday night and help me out, as a character witness. If you will, I will repay you by showing you the best show I have had in twenty years, and that is claiming a lot, as last year the Chicago and Milwaukee papers said we had an excellent company. You will see the best chorus of youthful loveliness that ever came to Janesville. You will hear the Columbia Harmony Four. And you—you, well, you will enjoy every bit of it immensely.

FAITHFULLY YOURS,

LEW KELLY

## Calumet is called "the World's Greatest Baking Powder"

because it is used by more housewives—more chefs—more railroads—more restaurants—more hotels than any other brand.

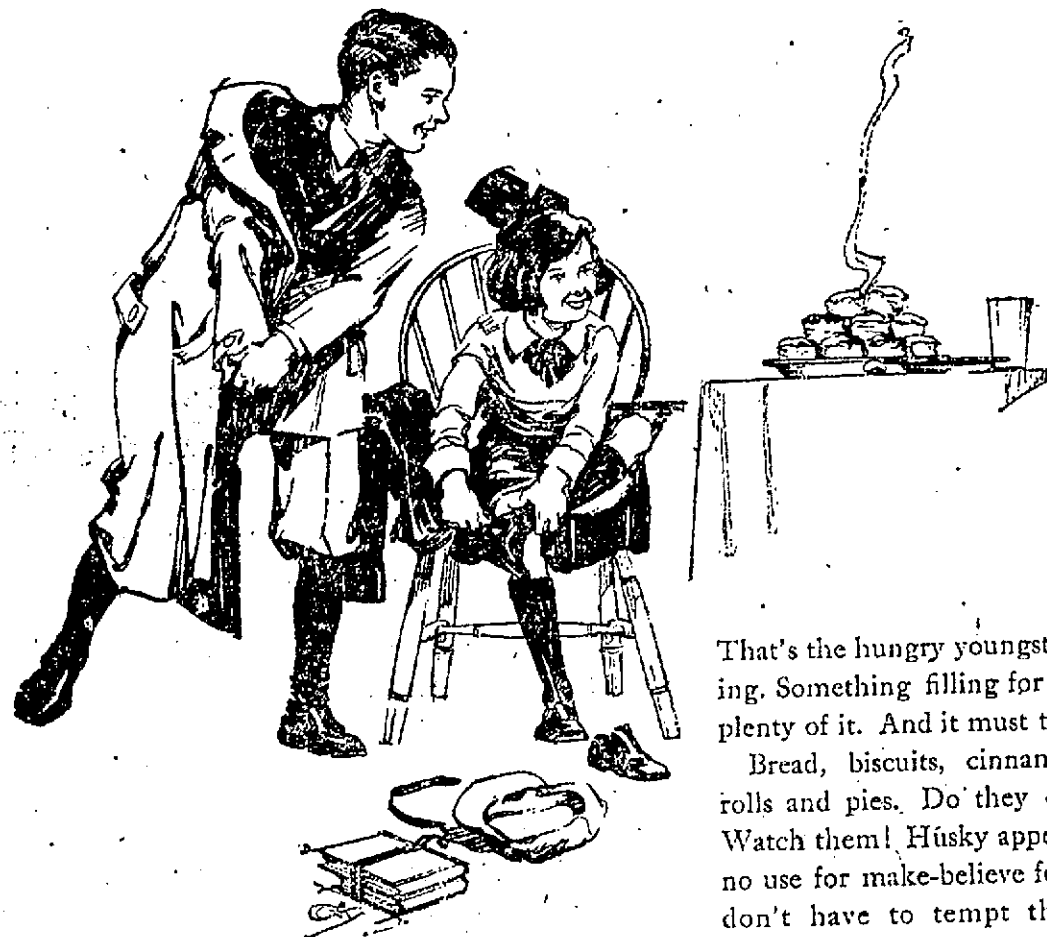

Calumet is called the "Economy Baking Powder" because no other brand on the market will produce bakings at such a low cost. Its dependable and unfailing action means no loss of time, money or materials.

Calumet is called for in thousands of stores daily because a better leavener cannot—and is not made—because a large can contains full 16 ounces and some brands come in 12 ounce cans—once tried it is always used.

## How does your market get its meat?

Day in and day out, the retail shop has the cuts of meat that you desire. The service is so regular that people take it for granted.

How the meat got there is an interesting story that you will like to read.

Back of your retailer is a large organization. This organization buys the live stock offered by the producers, transforms it into clean, wholesome meat, and then distributes the meat to thousands of retailers in cities, towns, and villages all over the country.

But how?

Larger cities have Swift & Company branch houses, which always have a supply of fresh and cured meats in their coolers.

The smaller cities and towns receive regular supplies from refrigerator cars shipped direct from plants.

The story of these direct shipments is interesting.

Swift & Company's 1924 Year Book tells this story on page 33 and also gives many other interesting facts about the packing industry. A copy is yours, free, if you will send for it.

## Aunt Nellie's Garden Peas

—with that farm garden flavor!

GATHERED in the morning and canned the same day is one of the big reasons Aunt Nellie's Garden Peas taste so sweet to you. No long transportation hauls and waits at the packing plant to wither the green peas so freshly tender. Shelled, cleaned, washed, inspected and then parboiled in fresh, clear water. Enamelled filling machines measure out the exact quantity in sterilized cans and cover the peas with eight ounces of sparkling spring water, sugar and salt. The cans are then hermetically sealed and cooked under pressure. Everywhere that fidelity to the old fashioned ideals of cleanliness in a shining white farm kitchen. Is it any wonder Aunt Nellie's Garden Peas taste better?

Ask for them by name!

"I didn't know whether I was working under Jess Smith, Burns or who," he said, referring to his work in investigations.  
When he was suspended Burns told him he said that he (Burns) "thought they were damn fools."  
When asked who was meant by "they," Means replied:  
"Oh, Jess Smith and W. T. Underwood—I saw him last at Palm Beach."

"Have you collected money on various occasions and from various people in your employment by the department of justice?" Means was asked.

"No sir, I had money delivered to me, for some one else. I did not go out and look them up myself," Means told of visiting Smith at his apartment there and when asked if he took orders from Smith, Means said "Oh, yes."

Year order delivered for 10c.

Smith however, never gave him any orders in the presence of the attorney general.  
"They knew the game," said Means in telling of visits to the Daugherty-Smith apartment and adding that "they" never saw him together—always separately.  
Means testified he knew that information he had given Smith had been turned over to the attorney general.  
Senator Wheeler, democrat, of Montana, interjected into Means' testimony at that point that he understood five men were "checking up" on him in Montana and Senator Frankfort, insurgent republican of Iowa, chairman of the investigation, added that he understood he was being looked after, too.

The prize fight films were first shown in Washington, Means testified, at the home of E. R. McLean, the publisher and central figure in the Teapot Dome inquiry. President Harding, Secretary Hughes and other notables were there. Means testified, consulting his records.  
Means went into detail as to how the money was brought to him by messengers in payments on the prize fight film "deal," saying he had "as much as \$6,000 or \$7,000" in his hands at one time in that way. He was pressed by Senator Moses and other committee members to estimate the aggregate of these "collections."

Means replied that he had "as much as \$6,000 or \$7,000" in his hands at one time in that way. He was pressed by Senator Moses and other committee members to estimate the aggregate of these "collections."

As the committee broke up, Senator Ashurst told Means that while he might be under indictment, he had rendered "great service to truth."

## ALL VARIETIES OF VEGETABLES SEEN

Local Stores Display Wide Assortment of Summer Green Stuff.

Every green vegetable to be obtained in summer may now be had in local markets, various kinds coming from Florida and California and some from as far north as Illinois. Asparagus, shipped here from Imperial Valley, Cal., retails at 25 cents for a small bunch, is one of the new items that has appeared within the past few days.

Fresh new beets, radishes, and green onions are among the most popular table vegetables now with new cabbage from Texas, at 6 to 7 cents pound, and fresh beets at 10 cents bunch, as close seconds.

Among the other fresh vegetables being displayed are celery, at 13 to 15 cents stalk; head lettuce at 8 to 10 cents each; spinach at 12 1/2 to 15 cents pound; peppers at 5 cents each; now carrots at 10 cents bunch; and cauliflower at 20 to 25 cents each.

Many vegetables, which have been on the market on and off for the past two weeks, have now arrived to stay, and will continue until time for the home grown varieties. Eggplants at 20 cents, a reduction from 25 cents each since last week; cucumbers, 20 cents each; green beans, the quality of which is good, at 25 cents pound; and tomatoes at 25 cents, may be had in any store; and chives, in small lots, at 15 cents; plantain at 15 cents; mushrooms at 30 cents pound; and new Florida potatoes may be purchased in many places.

Full potatoes are selling from 25 to 30 cents peck, or \$1 to \$1.10 a bushel. Some fall vegetables, among them cabbage, have become poorer in quality within the past month, and are gradually disappearing as the new spring varieties come on.

Winter vegetables still of good quality and at the usual prices are: parsnips, 6 cents; turnips, 4 cents; large carrots, 6 cents; Spanish onions, 3 pounds for 25 cents; cooking onions, 5 cents pound; and rutabagas, 4 cents. Celery cabbage is nearly gone.

Most apples are selling for \$1.50 to \$2.00 per bushel, except Delicious and Spitzenberg, which sell for 10 cents per pound. Other kinds, Tallman Sweet, Greenings and Baldwin, are 5 cents pound. Florida oranges sell most readily at 25 to 40

cents dozen, depending on size, and navel are largely 25 cents. Lemons remain at 20 cents, same as last week, but one or two dealers are selling for 20 cents or lower. Grapefruit are 5 to 10 cents each, and with strawberries, at 65 cents quart, cranberries at 15 cents quart and bananas at 12 to 15 cents pound, complete the line of fruits.

Eggs have dropped to 25 cents dozen, nearly 5 cents cheaper than at the corresponding time last year, but continue to sell at about steady prices, 52 to 54 cents, which is also under last year's price of 55 to 60 cents.

### OIL INQUIRY FAILS TO SHOW CRIMINAL ACTS BY ANYBODY

(Continued from page 1.)

testifying as to conversations with or telegrams to and from Mr. McLean have failed to produce anything incriminating. It has been an interesting disclosure of how a Washington publisher with a home here and in Palm Beach keeps in touch with things and how friendly he is to public officials and how far he stretches his friendship to shield a member of the Harding cabinet—all this has been eliminated as it would be by a detective story, but so far as results are concerned—nothing has been accomplished and the Teapot Dome case rests squarely in the courts where Albert B. Fall will have to prove his innocence and where the value of the lease to the government will have to be determined by expert testimony.

So the senate committee cannot determine whether Mr. Fall was guilty of accepting a bribe or whether the leases which he made injured the government.

All the other testimony relating to conversations with Edward B. McLean becomes irrelevant unless it can be proved that Mr. McLean was connected in some way with the making of the leases originally. And no evidence of that kind has been secured. Even if he had exercised his influence with Mr. Fall he could not be prosecuted for it because he is not a member of the United States government. It would have to be proved that he entered a conspiracy to defraud the government and there is no evidence of that before the committee.

The senate committee has not yet called H. P. Sinclair, nor has it requested an examination of E. L. Poheny, and it is said that the same reasons for wishing the courts to subpoena Mr. Fall apply to these two men, who will undoubtedly be witnesses in the civil cases which are to follow.

All the minor witnesses who are

## Movie Beauties

Use these powders—you will revel in them

By Edna Wallace Hopper

I have for years paid \$5 per box for my powders—to get the finest in existence. So do most movie beauties. They must have the best.

I started to offer other women my aids to beauty and to youth. But I did not dream that such powders as I use could be supplied at modest prices.

But the makers have helped me out. They now supply me these powders under my name, at a price which all can pay. I told them that women would use millions of boxes. So those who use my beauty helps may now get my powders, too.

None so exquisite

These powders are supreme productions, made for those who demand the best without regard to price. They are as fine as vapor, as harmless as dew, and fragrant with my favorite perfume. Most of you have never seen such exquisite powders.

There are two kinds, light and heavy. I use a heavy cold cream powder, with a base like my Youth

cream, it clings and stays. But some like a powder light and fluffy, without the cold cream base. So I had both kinds prepared.

Edna Wallace Hopper's Youth Cream Powder—the heavy, clinging powder—sells for \$1. Edna Wallace Hopper's Face Powder—the light and fluffy powder—sells for 50 cents. Both come in three shades—white, flesh and brunette.

Supplied by all druggists and toilet counters. They also supply my Youth Cream, based on fruits, my Facial Youth—my famous liquid cleanser, my Hair Youth, which brings my luxuriant hair, and my White Youth Clay—the utmost in a facial clay. These are the creations which made me a beauty, and which keep me a beauty at my grand old age. My Beauty Book comes with each.

If you want a matchless powder, go ask for a box of mine. If you want more beauty or youthful youth the very way which brought them to me are at your command. Edna Wallace Hopper, 535 Lake Shore Drive, Chicago.

## Case to Observe

### 25th Anniversary as M. E. Pastor

The Rev. F. F. Case, pastor of the  
Methodist Episcopal church here, will  
pastorize the 25th anniversary  
of his entrance into the ministry  
of the Methodist church, and will  
preach in the morning on the theme,  
"The Minister and His Message." His  
subject for the evening sermon will  
be, "If Christ Should Come to  
Janesville."

Previous to entering the ministry,  
the Rev. Mr. Case was engaged in  
the educational field, serving as dean  
of one college and president of another.  
Most of his ministerial life has been  
spent in pastorate in Iowa, although  
he occupied two pulpits in Minnesota.

Bishop Charles Bayard Mitchell  
induced him to take charge of the  
First Methodist church in Rochester,  
Minn., and later transferred him to  
Joyce Memorial church, Minnesota.

When a vacancy occurred in the  
local church, Bishop Mitchell asked  
him to come to Janesville.

## GRATEFUL PARENTS POUR OUT THANKS TO TANLAC

The value of Tanlac as a family  
medicine and tonic is again very  
forcefully demonstrated. This time  
in the home of Mr. and Mrs. Joseph  
E. Kaake, 2466 Kirkley Ave., West  
Detroit, Mich., where father and  
mother and every member of the  
family have been benefited by the  
wholesome and helpful ingredients  
of the famous preparation.

Recently, in speaking for herself  
and children, Mrs. Kaake said: "For  
more than a year our three little  
ones—John, age 6, Edwin, 4, and  
Margaret, 2—have been sick, pecked  
and listless that we were seriously  
worried about them. Their stom-  
achs were upset, appetites poor, the  
color had left their cheeks, and their  
nights were restless, and during the  
day they would just mope around,  
taking no interest in play or any-  
thing else."

"They began to eat and sleep bet-  
ter almost from the first dose of Tan-  
lac, and have picked up now until  
you couldn't find three healthier or  
more active children in all Detroit."

"They eat ravenously, the color of  
health has returned to their cheeks,  
and they just want to be on the go  
all the time. I have also taken Tan-  
lac to build me up, and it never  
seems to fail."

"As to my personal experience  
with Tanlac," said Mr. Kaake, "I  
simply can't express in words the

great help it gave me. About a year  
ago I was a victim of boils, actually  
having fifty-one on me, and was so  
played out that I couldn't do a bit  
of work for weeks. My suffering was  
almost unbearable. I cured little for  
food, suffered with severe headaches  
and stomach pains, and got so weak  
and nervous that I felt discouraged.  
Tanlac corrected my stomach dis-  
orders, woke up my appetite, cleansed  
my blood and toned up my system  
so that the boils went away, and  
nothing of the kind has bothered me  
since. I have gained 25 lbs., and I

can write personally. We wouldn't

### They Fit Like a Glove

#### The Little profit-laden offers of the A-B-C Classified

Section are of sufficient volume and variety to fit your needs like a glove fits your fingers.

A mitten, you know, doesn't amount to much as far as fit is concerned. Almost any average hand can be pushed into an average mitten—but there isn't the skin-smooth fit for all fingers that there is in a good glove.

The Classified offers are not like a mitten. They are more like a glove—because they are cut and fashioned to encase all your needs, rather than to enclose them loosely.

You will find that these offers will protect you even more than a glove!

And the classified section will never do what in the vernacular is known as "give you the mitten."
